

# ROSEBURG REVIEW.

FRIDAY, JULY 3, 1885.

## A STEP FORWARD.

With this issue, we discard our "patent" outside and present to our readers a home printed newspaper. Not quite six months ago the REVIEW came under its present management. That it has had a steady growth in the favor of the public can be testified to by its large advertising patronage and by the many new names on its subscription list. We have aimed to keep it fully abreast of the demands and to meet the wishes of the progressive people who have so generously endorsed our course and purposes.

To give the people of Douglas county a complete local newspaper, to give Southern Oregon a representative journal, and the State of Oregon a bold, fearless champion—these have been the objects of the REVIEW. That it will take time to make the REVIEW all we wish it, is a fact; and to aid us in our undertaking, we look with confidence to the people who have given us such adequate endorsement in the past.

Politically, the REVIEW is Democratic and heartily endorses the administration of President Cleveland. We desire revenue reform, civil service reform and an honest and able administration of the government. These, we take to be the aims of the Democracy and of the Cleveland administration. But above all parties must come American citizenship, and we will always claim and exercise the fearless and independent advocacy of any cause we believe to be right and in the interest of the people.

Again we thank our numerous patrons for the support they have accorded the REVIEW, and promise many more improvements in the near future.

## EXTRA SESSION.

The Republican Press of Oregon seem to treat the matter of an extra session of the Legislature as a fixed fact—a foregone conclusion—even a proper thing to be done. We call our readers of both parties to attest the fact that we have never yet shown the lack of confidence in Gov. Moody that has been shamefully displayed by his own party organs. They do not attach any importance to the circumstance that the Legislature just adjourned had exclusive jurisdiction over the subject and saw fit to do nothing. The law made it their duty to consider the matter of electing a U. S. senator. Surely the proclamation of the Governor cannot have any more binding force than the law they are sworn to obey. The Governor has the right to recommend the passage of measures and the Legislature has a perfect right to disregard his recommendation. Should they do so it cannot be pretended that the Governor should reconvene them to consider the same subject. Nonsense, and yet this is parallel with the senatorial business. Under the circumstances the Governor has no right to call the Legislature together for the purpose of voting for a U. S. senator and it is a real shame that his own political organs should thus seek to mislead him. If he is afraid to trust a Legislature new and fresh from the people then morally he is restrained—he should not, he dare not thwart their will. If Oregon must need have the vacant senatorship supplied then although we cannot concede his power to do so, it would be better to appoint. By so doing over thirty thousand dollars would be saved to our treasury and the people a year hence will have opportunity to be heard for themselves. Economy, honesty and fair dealing cannot be successfully disregarded by Mr. Moody or any other man or body of men. The Governor should prefer to be known as an honest man, a patriot, rather than as the pliant subservient tool of political tricksters.

The Portland "Standard" has a new management, Mr. Nottner retiring. He has been an indefatigable worker and holds a very dear place in the heart of the Democracy of Oregon. Mr. S. B. Pettengill is the new proprietor and he wields a very graceful pen. We understand that he will change it to an evening paper and devote it more especially to state and local news. Success.

Three more excursions are booked from the East to the Pacific coast this season, as well as a press excursion from Colorado. A party under the management of Raymond & Whitcomb, will leave Boston July 23d, and another, August 22d. The Illinois Central railroad is getting ready for an excursion to leave St. Paul, August 19th.

Hon. John A. Logan of Illinois, has lately captured the Blaine state—Maine. The "Plumed Knight" will scarcely recover from this backset. Mrs. Logan is equally as popular as her husband, and even outshines Mrs. Blaine in society.

## Hail Columbia.

Tomorrow will be the anniversary of the birth day of the government of the United States. On July 4th 1776, the delegates from the colonies of New Hampshire, Massachusetts Bay, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, North Carolina, South Carolina and Georgia met at Philadelphia and declared for a new order in government. At that time all the governments in christendom were governed by kings and princes, while the people were entitled to such rights only as their rulers would grant. The men who had carved out of the wilderness a new empire were not disposed to acknowledge any rights of kings, but astonished the world by declaring that "all men are free and equal, that they are endowed by their creator with certain inalienable rights, that among these are life, liberty and the pursuit of happiness, that to secure these rights governments are instituted among men, deriving their just powers from the consent of the governed, that whenever any form of government becomes destructive of these ends, it is the right of the people to alter or abolish it, and to institute a new government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their safety and happiness." This heretical doctrine was maintained by force of arms, in an unequal contest with the strongest kingdom in Europe, and when independence was won, was embodied in the constitution of 1789, which stands to-day the brightest example of the power of the people for self-government the world has ever known.

This declaration of independence is the event which the people are assembling in every town and every hamlet throughout the Union to celebrate tomorrow. It will be celebrated by large crowds, some of whom will listen to the orator of the day; but the majority look upon it as a holiday devoted to pleasure and fire-works, without the slightest thought of the solemnity of the occasion. Our forefathers held it sacred in memory of those grand old patriots who pledged their lives, their fortunes and their sacred honor to maintain the principles which are the foundation of our government. It would be well if their descendants would celebrate in the same manner and thus keep alive the same flames on the altar of liberty.

## DIED.

On Friday the 26th of last month Indian Moch died on his place on East Umpqua. Moch was well liked by all who knew him. Our readers will remember the circumstance mentioned in this paper several months ago of his having sent to President Cleveland a present of a pair of Indian make buckskin riding gloves. They were graciously received by the President who in return sent his photograph. This humble American citizen was deemed worthy the respect and courtesy of our great Chief Magistrate and the evidence of it further served to exalt this great officer.

Moch was a Klamath by birth, was captured when a child and raised by the Umpquas and at death was thirty five years old. He was quiet and civil and never bore arms in war except to assist the whites against the Modocs in 1872. His life furnished a good example to others of his race. In the vast field of eternity may he reach and rest in the happy hunting ground prepared for all who in life were meek and lowly.

The first person born in the White House, and perhaps the only one born there, is now a candidate for office in Washington. Mrs. Mary E. Wilson was a daughter of Andrew J. Donelson, the adopted son of Gen. Jackson. Donelson was private secretary to Jackson during his term as President, and resided with his family. Mrs. Donelson being lady of the house in the absence of the President's wife. It was during Mr. and Mrs. Donelson's time that their daughter Mary was born. This child of the White House married in the course of time, becoming Mrs. Wilcox.

A correspondent writing from Naples, says this city has a population of 495,000; of which, 350,000 live under ground, in noisome cellars that extend far back from the street. Crime is so rampant, that in many thickly populated quarters of the city, highway robberies frequently occur, in broad daylight. The natives seem to feel that the world owes them a living, and they are going to get it. Defending the criminals, gives occupation to 11,000 lawyers, of the Italian school, who work for fees, from five cents upward.

When the "worst" is said, the United States is still the most prosperous of all civilized nations.

## CORRESPONDENCE.

From Drain.

The Judge called at our house this week and while there took occasion to remark that R. A. Booth, one of the best accountants in Southern Oregon, is to establish a commercial department in our State Normal School next term. Tommy remarked that this is a step in the right direction, for there really ought to be no necessity for young men going to Portland for a business education and now, that a man so competent undertakes the business, they need go no further than Drain.

Charles S. says that he saw Huckleberry Finn and Tom Sawyer on a raft in Elk creek Tuesday, but I'm inclined to think it was a case of mistaken identity, being only Will P. and Ed K. clearing the course for the boating club which is organizing with Will P. for rear-admiral. Pete says that late at night, you may hear Will practicing in the woods, making such blood-curling remarks as: "Avast heaving! my hearty! belay your jaw, and batten down your gab ports!" or "I am your helm hard a port; and reef the gab boom sparker!" But then, you know Pete probably overdraws the picture. It's a habit Pete has.

Sol is sad and lonely now, but hopes to console himself at Canby this week. The O. of H. lodge expects to have a celebration on the glorious fourth, at the grove near Mr. Drain's residence. The oration will be delivered by Prof. Benson, the poem by Judge Goodell, the reading of the Declaration of Independence by R. P. Cheshire. Dr. Kuykendall will be president of the day.

Miss Ida Booth left us this week, to take charge of the public school at Elsieburg, Curry County.

Hugh Caldwell, the gentleman book-keeper for Drain & Co. left us this week to establish a business in Walla Walla. Our best wishes go with him.

Our Jimmy is as beaming and benevolent as ever, and his cheery voice enlivens our village once more.

Ed Estes says that a Roman nose is a first rate thing to have, but when a raving madman undertakes to improve its shape, there's no fun in it. I never had any experience of that sort, but after looking at E's proboscis 'm willing to take his word for it.

The Oregon State Normal school of our town bids fair to be crowded with prospective teachers during the coming year judging by the letters of inquiry that pour in upon the President.

CASABLANCA.

From Oakland.

Light slower Monday. P. G. Estabanks had the misfortune of losing a box of jewelry anyone finding the same will be liberally rewarded by leaving it at Page & Diamond's drug store.

There can be seen at the farm of W. R. Smith a cabbage stalk that has reached the height of six feet.

Sale Jones is making preparations for a grand celebration at Garden Bottom on the 4th.

M. Finkle made a flying visit to Corvallis Monday in the interest of the Yaquina railroad, strange he cannot be absent from here for more than a day at a time.

Jack Peters has returned to Oakland after an absence of several months.

Garry Young paid Yoncoolly a visit Tuesday.

Flem Owens was in town Monday. Hyman Abraham and his daughters were visiting friends Wednesday.

The wind will bring created by R. Thomas is nearing completion and when completed will be of great use in case of fire.

Prof. Ambrose of Yoncoolly was in town Thursday.

The 4th will be celebrated here by a picnic and a dance in the evening.

From Uman Valley.

Haying is at its meridian. The good fever is dying out. The singing school closed last Sunday. School will close in both districts next Friday.

Leona Coon will give a grand ball at the grove on the evening of the 4th. William Thompson has returned from his prospecting tour. She was glad to see him.

There was a social dance given at Mr. Peters residence the other evening. All present enjoyed themselves.

Some say that Oregon is no corn country, such persons should go and look at the field cultivated by Mr. Doney. It is a sight and no mistake.

Miss Sarah Wells of Ten Mile spent the latter part of the week visiting in the valley. It was noticed that William did not make his usual Sunday pilgrimage.

Petitions, requesting the County commissioners to fix a bounty on varmint scapes, are being circulated and extensively signed throughout the valley. This is the right course to pursue.

Our people are making extensive preparations to celebrate the 4th appropriately. Messrs Geo. Doney, J. A. Thompson and other leading citizens have undertaken the management, thus assuring success. Prof. H. J. To bias of Coguille city has been engaged to deliver the oration, a salute of thirty-eight guns will be fired at sunrise also at sunset and will with various amusements make an enjoyable and long to be remembered event.

POLYPHEMUS.

## ATTENTION EVERYBODY!

A Circular Letter from the State Board of Immigration.

Sir.

For the purpose of fitting out a specimen car, which, through the courtesy of railway officials, controlling roads centering here, and radiating from Chicago, Des Moines, Detroit, and other places; is to be sent this summer on an advertising mission through the agricultural districts of several of the states east of the Rockies, and to provide material for such a re-arrangement of the exhibit in the rooms of the Board here, as will make it attractive and informing to visitors; the Commissioners most respectfully ask your valuable assistance in the collection of sample products.

It is desirable to have specimens of all the cereals, grasses, minerals, woods, soils, winter-keeping fruits and vegetables, (green, dried, or preserved,) from each county and locality in the state. It is also desirable, that specimens should be in the main, representative of a fair average of the crop, or growth. Specimens sent, should bear the name and county address of the donor, and be carefully packed for the shipment to this city, where they will be arranged for the car.

Added to the collection of a county, there should be a carefully written description, for distribution from the car.

Through the courtesy of the Oregon & California, and the Oregon Railway & Navigation companies' managers, all specimen products directed to the president or secretary of the Oregon State Board of Immigration, will be carried free of charge. Specimens may be forwarded from this date to the close of the harvest season.

As this is a very important matter, and in the guaranteed good results of which, every citizen of the state has a vital interest, we hope you will give it your prompt service and attention. Yours respectfully:

Chas. H. Dodd, W. N. Lelue, H. W. Corbett, H. B. Miller, J. R. Cox, Commissioners.

C. B. Carlisle, Secretary.

To Whom it May Concern.

Having noticed in the last issue of your paper, that D. R. B. Winniford is canvassing in this county for a steam washing machine, I would say to all interested in such an article, that I also have the agency of this county for a steam washer called the Missouri Steam-washer, patented May 1, 1883. The model machine which I sent for about nine months ago has been in use every wash day since, and has given entire satisfaction. I expect soon to canvass the county. Now, I don't wish to deal unjustly with Mr. Winniford, I know nothing about his machine, but the expense that I have been to will not allow me to step out of the business without an effort to succeed. I shall therefore ask all who are interested in such a thing as a washing machine, to exercise their best judgment and let merit influence them in making a choice. J. P. DUNCAN Agent.

Are You Tired of Being Sick!

We want to say a word to the men, women and girls who work in stores, offices and factories. There are hundreds of thousands of you in the country. Very few of you are well. You are shut up too much and exercise too little. In this way you are sick. Your blood is bad, your digestion poor, your head often aches, you don't feel like work. Your liver, stomach and kidneys are out of order. Parker's Tonic has cured hundreds of such cases. It is pure, sure and pleasant.

Thirty six, out of the one hundred and thirty two applicants for admission to West Point Academy, have been found deficient.

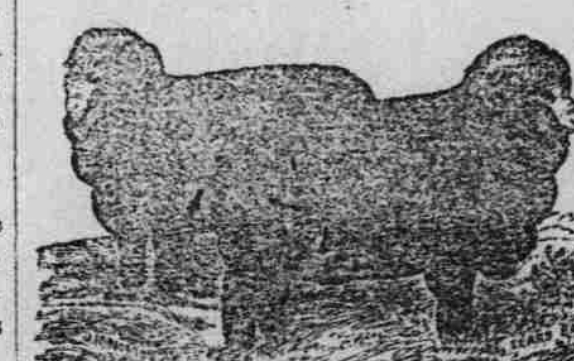

## NEW THIS WEEK.

### Assignee's Notice.

NOTICE IS HEREBY GIVEN THAT LOUIS B. BELL, of Roseburg, Douglas County, Oregon, on the 27th day of June 1885, made a general assignment of all his property to the undersigned, Edgar C. Caro, under the provisions of the statute of Oregon, entitled "An act to secure creditors a just division of the estate of debtors who cover to assignees for the benefit of creditors," as amended by an act entitled "An act to amend section 5 and 15 of an act entitled 'An act to secure creditors a just division of the estate of debtors who cover to assignees for the benefit of creditors,' approved October 1878, and to provide for the discharge of debtors." Therefore, all persons having claims against the said Louis B. Bell, are hereby notified to present their claims under oath, to the undersigned assignee at the store of Caro Bros., in Roseburg, Douglas County, Oregon, within three months from this date.
